Locksmiths Love New Dmax Skim Code Reader & Reprogrammer

Well our new tool we created the **DMAX Chrysler Skim Code Reader and Reprogrammer** has been out for about 1 year now and the reviews from our customers are great! The locksmiths that have used it love it and have said they do not know how they ever lived without it!

This is the only locksmith tool that will do all types of systems Type 1, Type 2, CAN, and Fobic. There are no tokens to buy or any other fees. Just purchase the *Dmax* and start saving time & money!

UPCOMING UPDATES

Later this year we will be releasing a new update which will allow you to do key programming on all Ford vehicles as well.

DMAX Chrysler Skim Code Reader & Reprogrammer

With the *Dmax* you are able to pull SKIM codes right out of the WCM in any Chrysler, Jeep, or Dodge vehicle. Also with this tool you can edit the VIN or the SKIM code on the WCM in the instance that the WCM was replaced with a used one from another vehicle. This tool will also read & reset any DTC's that may be on the system.

In 2010 we will be releasing the Mitsubishi update and several others as well. We also have plans to increase the capability of this tool to serve your other programming needs which will make this tool even more invaluable!

What makes this tool great is that it eliminates the need to call a Chrysler dealer to get the SKIM code which saves you time and money! It also makes key programming a breeze, within 2 minutes you can have all your keys programmed and be onto another job.

Hello,

AE Tools & Computers has been in business for over 30 years. We specialize in all types of high tech diagnostic testing equipment for the automotive industry. We have diagnostic testing equipment for just about anything that has wheels and moves from Semi-trucks, Heavy Duty Equipment, Medium & Heavy duty trucks, to domestic and foreign cars. We also specialize in locksmithing tools for programming keys, WCM's, and PCM's.

I personally guarantee your satisfaction with every aspect of our business! We survive on our customers repeat business and word of mouth referrals. If you are ever dissatisfied with anything please call me personally and I will make it right for you!

Best regards,

Joey Hendrich

Nissan Consult-III

NISSAN CONSULT-III

CONSULT-III is the new generation diagnostic system for Nissan and Infiniti vehicles.

It is powerful, flexible and easy to use and will transform your ability to provide rapid, accurate service diagnostics for today's sophisticated Nissan and Infiniti models and future products – good news for both you and your customers.

CONSULT-III is a laptop-based diagnostic system using a Microsoft® Windows® based user interface. It has a new Hardware platform – laptop PC - and a new Application for diagnostic work.

This new tool will provide all Nissan and Infiniti technicians fast, portable access to technical, warranty, and vehicle information as well as Nissan and Infiniti service technical support.

The Nissan Consult-III is a very difficult tool to come by for the aftermarket repair shops and if you do any work on Nissan or Infiniti cars it is an invaluable tool to have.

We just receive a small shipment of these units in this week and they will go fast. If you are interested in one please give us a call at **(785) 445-3533**. If we run out there is usually about a 3-4 week timeframe on backorders.
